

La Persiana Michelangelo è una persiana in alluminio caratterizzata da un telaio e un'anta squadrata, pensata per unire solidità ed eleganza.

Il design lineare e pulito la rende perfetta sia per ristrutturazioni che per nuove costruzioni.

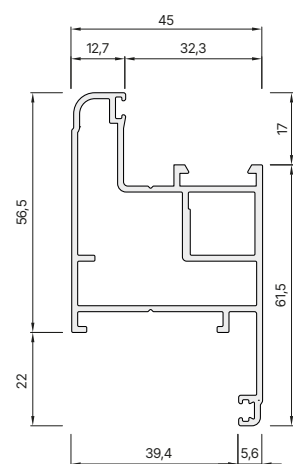

Il telaio standard ha un'ala di 40 mm di serie, ma è disponibile su richiesta nelle varianti da 22 mm o 65 mm, per rispondere alle esigenze specifiche di ogni progetto.

Le pannellature sono a doghe verticali o orizzontali; gli accessori coordinati, come martelline, tappi e comandi, sono disponibili in una vasta gamma di colori, aggiungendo un ulteriore tocco di stile e raffinatezza.

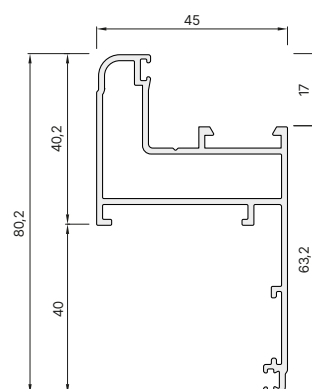

La verniciatura, realizzata con polveri di ultima generazione, include un trattamento Seaside, che garantisce una resistenza superiore agli agenti atmosferici e alla corrosione, assicurando una lunga durata anche in ambienti esposti agli agenti esterni.
